Gifting with Impact

WHY SHUDDHA? WHY NOW?

Every Shuddha hamper begins its journey in the mitti of Bharat—from the fields where farmers nurture chemical-free crops to the village corners where SHG women pack with care. By the time it reaches your hands, it has carried livelihoods, traditions, and dreams.

Authenticity

Traceable, residue-free, pure products that stay true to their roots.

Empowerment

Strengthening farmer incomes and women-led collectives across 16 states.

Sustainability

Plastic-free, eco-friendly, and designed for reuse.

Behind every jar of spice, every pouch of seeds, and every crate of wellness lies a powerful story:

- ❖ **FPOs (Farmer Producer Organizations) :** Farmers joining forces to secure fair prices, bargaining power, and dignity in markets.
- ❖ **SHGs (Self-Help Groups) :** Women's collectives balancing homes and hustles, saving together, investing together, and earning livelihoods with every hamper they pack.

In a world shaken by climate change—erratic rains, rising heat, fragile soils—these groups keep alive the purity of food and the resilience of farming.

So yes, a Shuddha hamper is a gift. But it's also a statement: Bharat's purity, packed for you.
